Carton weight: 1.44 kg

Carton dimensions: 20cm x 17cm x 10cm

Cartons on a layer: 28

Layers on a palette: 20

Cartons on a pallet: 560

Pallet height: 215cm

Professional, practical brush (comb) for cleaning joints in bicycles. The brush is made of plastic. Thanks to the specially profiled shape of the brush, it is possible to reach hard to reach places. This bicycle brush has two different parts. The first has long bristles, making it very well suited for extracting all dirt from gears. The second, arched toothed part, thanks to the teeth, allows the removal of dirt from the space between the gears (useful e.g. when cleaning the back cassette).

- Hanging hole for shop hooks
- Perfectly cleans bicycle joints
