The unique windshield squeegee is ideal for quick drying of the car after washing as a tool for accurate and safe removal of water from smooth surfaces: car bodies, windows, etc. The soft pen is safe for any surface, especially for car paint and does not leave traces of water. The exceptionally ergonomic shape of the squeegee and rubber tabs make it extremely comfortable. In addition, it has a special, patented handle tip to remove water and insects from smaller surfaces, e.g. mirrors.
